Mursix Corporation Receives ICTW “Spotlight Award”

Muncie, IN – Mursix Corporation, headquartered in Muncie, was recognized by the Indiana Economic Development Corporation and its Small Business Development Center network as one of five inaugural Spotlight Award honorees at the 3rd annual Indiana Companies to Watch celebration on August 26.

Mursix was one of just five Spotlight Award honorees, each of which was chosen from past ICTW classes. (Mursix was a member of the inaugural 2008 ICTW class of 50 companies that were chosen from more than 420 nominated companies.) The Spotlight Awards, a new feature this year of the Companies to Watch program, celebrates the five companies’ “ongoing growth and success” since their original selection as Indiana Companies to Watch. Joining Mursix were AIT Laboratories (Indianapolis), Alexin LLC (Bluffton), OrthoPediatrics Corp. (Warsaw), and Perpetual Technologies, Inc. (Lawrence).

In commenting on the company’s selection as part of the inaugural Spotlight Award group, Mursix President Todd Murray said, “We are honored to be included in this select group of companies. Our success is a testament to the hard work, dedication, and ingenuity of every member of our Mursix team.”

Commenting on the ICTW program, Mitch Roob, Indiana Secretary of Commerce and CEO of the Indiana Economic Development Corporation, said “Firms like these named ‘Companies to Watch’ continue to be the catalyst that is fueling Indiana’s emergence from a turbulent national economy. Congratulations to this exemplary group of Indiana businesses that continue to invest in their communities and create new jobs in all corners of our state.”

About Mursix Corporation

Mursix Corporation, headquartered in Muncie, Indiana, is a manufacturer of precision components for the automotive, appliance, alternative energy, electronics, security, and other markets. Mursix companies include Twoson Tool, Twoson ESP, TFX Plating, Dakota Engineering, Chintec Precision Manufacturing, and Tri-T Technologies. The company operates manufacturing facilities in Muncie, Indianapolis, and Matthews, Indiana, and in Wuxi, China. Core competencies include punch press and multislid processing of precious metals, insert molding, robotic welding, trivalent plating, CNC and precision screw machining, wire harness manufacture, and complete assembly.

Mursix has been designated as an “Indiana Company to Watch” by the Indiana Economic Development Corporation.
